Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

to line your own pockets? My husband is 71 and I am 64 years old. Our income is barely sufficient to survive as it is. Senior citizens are constantly being trampled on (abused by the "powers that be." Prescription drugs are too high and other means of survival are so expensive for us. Someday, YOU will be in our shoes. What goes around comes around.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.
